### Fit for Real People: Express Workshop

Love to sew clothes, but can't figure out the fit? Solve the fitting puzzle by spending 2 full days learning how to "tissue fit" your upper body pattern. You will discover your true pattern size (it's not your ready to wear size!) and how you vary from the "standard" sizing of a commercial pattern (and we ALL do). You will be able to try on pre-made bodices (45 sizes in all!) to determine your "best" pattern size. We will then use the McCall's Palmer/Pletsch "Learn to Fit" pattern # 2718 (available in class) to learn how to make the simple alterations on the tissue, that will make it fit YOU. Students will then be able to alter an additional upper body pattern of their choice. This class is a pre-requisite for "Jackets for Real People". Taught by Tara Perkins, Palmer/Pletsch Educational Associate \$120

Bellevue Wed 10/7 & 14 9:30am-5:30pm

### Open Fit Workshop

Need more help with fitting your pattern? Take this workshop for more classroom help. Fit a new pattern, or finish your current project. Pre-requisite is "Fit for Real People" for tops & dresses or jackets, or "Pants for Real People" for fitting pants. Taught by Tara Perkins, Palmer/Pletsch Educational Associate \$48
